## Presidents Message:

Dear Friends,

On behalf of the Indian Society of Cosmetic Chemists, it gives me great pleasure to welcome our Sponsors, Exhibitors, International and Indian delegates, our esteemed Speakers, IFSCC and ISCC members to the ASCS Conference 2024 in the sunshine state of Goa. It is a great honour for us to have been selected by the ASCS Secretariat to host this event for the first time in India.

The ASCS Conference 2024 aims to promote an exchange of technologies and culture between the member Societies, and we hope that our international delegates will experience our Indian hospitality and culture while they are in Goa. There will be many opportunities to network and share experiences and capabilities. We hope that all our delegates will avail of this opportunity and make some lasting and valuable connections.

The Conference Programme has been carefully curated by our Technical Committee headed by Dr. Anjan Ray. It has been divided into 5 Technical Sessions covering important aspects of Cosmetic Technology like Functional Ingredients, Sensory Trends, Perfumery, Regulations and Sustainability. Our invited Speakers are eminent personalities in their respective fields, and we are privileged to have them share their knowledge with us. We also have a host of Speakers presenting their abstracts on the latest developments and research in Cosmetic Technology from India and around the world. We had received several abstracts, some of which will be presented at our Poster Session running concurrent with the Conference.

I would like to thank our dedicated Organizing Committee, especially our Chairman Mr. Ravi Kamat for the hard work and resolve in bringing this Conference to fruition. We extend our gratitude to our Scientific Programme Committee who took time off from their busy schedules to put together an incredible Program. It has been a year of hard work and we sincerely hope that you find that you could make some useful contacts and take something positive away from the Conference.

*M. Mullick*

Monisha Mullick  
President ISCC

## WHO ARE WE

A GLOBAL FRAGRANCE HOUSE WITH OPERATIONS & MANUFACTURING in UK, India, US & China.

We have been creating fragrances since 1980.

Goldfield Fragrances was established in 1986, erstwhile CFL Aromas (P) Ltd. Established in Goa in 1980 to manufacture 'Old Spice' in India.

Quintessence UK was set up with Anita Roddick as she set up 'The Body Shop'.

GOLDFIELD BOUGHT QUINTESSENCE, UK in 2003.

Since 2016 we operate in India & all over the world as Quintessence Fragrances Pvt. Ltd.

From there we've grown our passion and expertise to become the specialists we are today especially in Fine Fragrances, Candles, Reed Diffusers.

**FACILITIES :** CREATIVE & EVALUATION CENTRES ARE in UK, France, USA & India (Mumbai)

**PERFUMERS:** Based in UK, France, India & US

**PRODUCTION:** NEWHAVEN (UK), CHANNAI & GOA (INDIA) & CHINA

**REGULATIONS:** Follow latest IFRA, RIFM & REACH Regulations as required by different markets around the world.

**CLIENTS :** Spread across all the 4 corners of the world E.A.M.E., C.A.M.E., India, South East Asia & USA

## Fragrance created for:

### Personal Care Applications:

- Fine Fragrances
- Deodorants
- Cosmetics & Toiletries
- Natural Products
- Baby Products
- Wet Wipes

### Home Care Applications:

- Candles
- Agarbatti
- Reed Diffuser
- Room Freshener
- Floor Cleaner
- Soap & Detergent

### New Application (Malodour Technology):

- tech**NO**dour

## ASCS 2024 Chairman's Welcome

My dear Cosmetic Scientists from Asia & Beyond,

It is my pleasure and honour to welcome you all to this ASCS CONFERENCE 2024 being hosted by Indian Society of Cosmetic Chemists at the enchanting idyllic state of Goa.

India, or Bharat as you would be aware, has a rich ancient heritage of science and technology. Cosmetic products of virtually all types have been in use in India for many, many years. This can be seen on the carvings of the famous Khajuraho temples that are more than a 1000 years old. With advances in research and technology, the Indian Cosmetic Industry has kept its pace with the world. India is home to the sciences of Ayurveda and other proven home recipes in beauty. To add to the above, industry has upgraded to modern techniques to offer products that are at par with international ones!

Our theme of this Conference, in keeping with the latest trends, is aptly titled as: Evidence-based, Sustainable Sensorial Science: Traditional knowledge meets modern science.

We have a plethora of famed International and National Scientists who will share their expertise in the oral presentations at the Conference, as well as many in interesting Poster presentations based on the theme. All in all, I am sure that we will be treated to an interesting and engrossing Conference.

Friends as you know, India is known for its hospitality and Goa is one of its popular destinations. So along with the Scientific Conference, do enjoy the Indian hospitality and the famous Goan cuisine and its folk culture.

To sum up, on behalf of ISCC, we will leave no stone unturned to make your stay here comfortable and memorable.

With warm regards

Ravi Kamat  
Chairman ASCS Conference 2024

## Indian Society of Cosmetic Chemists (ISCC)

*A Must for All Cosmetic Professionals*

**BENEDICT M MASCARENHAS,**  
ISCC, HON Secretary

Indian Society of Cosmetic Chemists, popularly known as ISCC is a Society of Cosmetic Professionals - Cosmetic Manufacturers, Ingredient Suppliers, Cosmetic Packaging, Academicians, Students and caters to the interests of the Cosmetic Professionals.

The **ISCC** began its journey as a Registered Society on 31st July 2002 under the able leadership and guidance of Late Mr. G. D. Kelkar together with other industry veterans who formed the first Management Committee. The **ISCC** has recently completed 20 years of its existence on 31st July 2022, and is now poised to reach new and even greater heights through the collaborative efforts of the members and the Management Committee. The ASCS Conference 2024 which is hosted for the first time in India by the ISCC bears testimony to this.

Membership of the Society is open to all persons on an individual basis who are interested in promoting the objects of the Society, and who, in the opinion of the Council of the Society, have the necessary qualifications. The key objectives of the society include promoting the cause of Science & Technology in the development of the Cosmetics & Toiletries Industry through sharing competencies, building capabilities and networking for growth.

### MEMBERSHIP TO ISCC

Membership is currently available under the following Categories –

1. Life Members – Rs. 12,390/-
2. Fellow / Affiliate Member – Rs. 2,360/-
3. Student Member – Rs. 885/-

The above costs include 18% GST.

### Membership Benefits:

#### For Life Members –

1. Ideal place to network and interact with the industry
2. You also get an ISCC ID Card with your name & photo as a Life Member.
3. ISCC Newsletter – Free to all ISCC Life Members
4. ISCC is affiliated to International Federation of Societies of Cosmetic Chemists (IFSCC) and Life Members of ISCC are entitled to all the Membership related benefits extended by IFSCC to Life Members of affiliated Societies.
5. IFSCC Quarterly Magazine – Free to all Life Members
6. Attendance to ISCC Lectures and In-house Workshops conducted by Industry Leaders and International Professionals – Free / Subsidized Rate
7. Concessional Rates for Workshops, Conferences & Seminars organised, partnered or supported by ISCC.

## ASCS 2024 CONFERENCE

6-8 March 2024, Alila Diwa, Goa

**Theme: Evidence-based, Sustainable Sensorial Science:  
Traditional knowledge meets modern science**

The ASCS-2024 Conference brings the Who's Who of Asia's thought leaders in cosmetic science and technology together against the scenic backdrop of Goa, one of India's leading tourist destinations.

Within the overarching Conference Theme of "Evidence-based, sustainable sensorial science: where traditional knowledge meets modern science", the event is structured into five session theme tracks:

- Evidence-based Beauty and Wellness through functional ingredients
- New sensory trends in formulations
- Next-generation perfumery
- Sustainable supply chains and Circular Economy models
- Evolving Safety and Regulatory Landscape in Asia

Keynote, plenary, contributed talks and posters addressing these five tracks, as well as a special poster session theme on New Science, will bring forth the latest concepts in the sector for the benefit of the widely international audience. Confirmed speakers from Singapore, France and Japan would also enrich the many student attendees who are expected to be present as part of the future workforce of an exciting industry.

## NATURALLY CREATIVE FOR FIVE GENERATIONS

For Over 170 years and five generations, Robertet has been listening to and is at the service of Nature. The history begins with focus on naturals from local plants, in Grasse for use in perfumery to creation

Over the decades, Robertet has acquired:

- Sustainable sourcing of natural ingredients from around the world.
- An expertise in natural products and their technical process of production.
- It is natural that the group is committed to sourcing organic ingredients.

### Our Offering

“Seed to Scent” is a development concept that establishes full traceability from the source of the ingredients to the final creation. Robertet group fully integrates all stages “from Seed to Scent” creation i.e. Harvest, Extract, Analyze and Compose.

Our main activities include sourcing and transformation of plant ingredients into volatile and non-volatile natural extracts. Using a very integrated approach to sourcing, Robertet has developed a real expertise in natural products, making the Group today’s undisputable specialist in natural aromatic raw materials.

## Delfin launches SkinPhotoTyper for Skin Phototype Measurements

SkinPhotoTyper is a fully portable and wireless instrument for measuring the skin phototype. The device utilizes scientifically validated measurement technology. Skin phototype is measured based on the ITA degree and classified with a scale from 1 (very light) to 6 (dark) similar to Fitzpatrick scale. Skin phototype assessment helps in adjusting the power of the IPL and laser devices before hair removal to increase the safety of the treatment. Additionally, skin phototype measurements can be used in SPF Testing, tattoo removal, chromotherapy aesthetic care or in any study related to skin pigmentation. The SkinPhotoTyper can be used either as a stand-alone device or measurement data may be collected wirelessly to the DMC software. The DMC software allows users to set up individual projects and plot and print the results or export measurement data to other programs for editing. The SkinPhotoTyper is now conveniently available in India through EnvisBE Solutions Pvt. Ltd.

## Moldoc Biotech Private Limited

MOLDOC BIOTECH PRIVATE LIMITED ([www.moldocbiotech.com](http://www.moldocbiotech.com)) was founded in June 2022 with joint partnership of French Company INSIGHT BIOSOLUTIONS (<https://insight-biosolutions.com/>) to create and offer rapid in-vitro, in-silico, and Regulatory solutions for compound characterization, formulation and product design, regulatory safety assessment, toxicity profiling, as well as the registration of compounds in the EU with partners and in India. We also specialize in the export/import of biological products such as Ex. Vivo human Skin tissues for Skin absorption assay (OECD 428) and Human Hepatocytes between the EU and India.

## Robertet

Our great wealth in traditional raw materials or materials obtained using state-of-the-art technology gives perfumers free rein to express their creativity. These specialists assimilate and easily anticipate the cultural, technical and artistic characteristics specific to the diverse perfumery markets worldwide. Robertet's creative department surveys and analyses the consumer lifestyle, olfactory trends and mentality of each market that allows perfumers to practice their art in constant response received from the evaluation, marketing, and sales department. This on-going process has helped Robertet to establish a fragrance library of more than 2000 fragrances. Our unique expertise and unmatched experience enables us to deliver new ideas and innovative concepts to renowned brands that help become household names across the world.

### Himalaya Wellness Company

In 1930, a young visionary by the name of Mr. M. Manal foresaw the benefits of herbal remedies while riding through the forests surrounding Dehradun. After diligently researching the science of the traditional field of Ayurveda, he decided to dedicate his life to creating products that would improve millions of lives across the world. Today, with a history spanning nine decades in herbal research, Himalaya is a brand that cares about not only enriching people's lives but also the environment. With a head-to-heel range of products, Himalaya offers holistic solutions to everyday ailments. Seeped in a legacy of researching nature, Himalaya has successfully been able to harness the science of Ayurveda through cutting-edge research and is a brand that is safe, gentle, and trustworthy. Himalaya's personal care range is developed by harnessing the power of Ayurveda backed by modern scientific research. The range includes over 300 products for head-to-heel wellness, falling under categories like Body Care, Eye Care, Face Care, Hair Care, Lip Care, Men's Care, Oral Care, and Baby Care. These products are made with natural and naturally derived ingredients and other safe, functional ingredients and are tested for safety and efficacy by leading dermatologists in independent laboratories. The product benefits and claims are validated through experimental, consumer, and clinical research carried out by independent agencies.

Silver Sponsor

### Nikkol Group

Since its establishment in 1946, NIKKOL GROUP globally provides specialty chemicals to the fields of personal care, pharmaceuticals, and chemicals, using expertise in colloid chemistry and skin science. As a comprehensive technology-driven supplier, we proactively support our customers through collaboration to meet their diverse needs. NIKKOL GROUP is committed to the enrichment of human life through a wide variety of business services including the manufacture of high-quality raw materials and surfactants, the development of product formulations, and the evaluation of safety and efficacy of ingredients and final products. In May of 2023, we established NIKKO CHEMICALS INDIA to understand customers' needs in more detail and provide proposals tailored to clients' product developments by working together.

### Orah Nutrichem

Orah Nutrichem is a story of a great product, great Design Thinking into the product and that of Dream to Hope to Reality. The story of Design Thinking at ORAH Nutrichem Pvt Ltd is a tale of innovation and commitment to values. In the truest sense it was an ecosystem of Innovation that proved to be extremely successful for Orah's first product "Tocotrienol – Vitamin E". Since 1985, Tocotrienols, a liquid Gold, a natural source of vitamin E, was known but remained untapped due to the challenge of finding a suitable dosability and miscibility. Hence Tocotrienol remained a desired but distant dream of Natural Ingredient Users. While others resorted to synthetic methods, ORAH embraced design thinking concepts, driven by a commitment not only to profits but to prosperity, people and the planet. Fuelled by a dedication to natural ingredients, ORAH invested several years in research to formulate a unique solution.

# MEET OUR SPEAKERS

## SCIENTIFIC PROGRAMME COMMITTEE

**Dr. Anjan Ray:** Scientific Committee Chair Independent Consultant & Chairman - Petroleum, Coal and Related Products Division Council, Bureau of Indian Standards Dr. Anjan Ray, ex- Director CSIR-Indian Institute of Petroleum, is an experienced technologist, strategist, teacher and trainer with exposure to a wide range of industries and international

markets. He has a proven track record in commercialization of new technologies from lab to market, in sustainability, growth and process excellence projects in the chemicals, energy, and pharmaceutical and cosmetics formulation and ingredients sectors. Dr. Ray has worked with clients in over 50 countries over the past 30-plus years. Dr. Ray is the Founder Member of ISCC.

**Dr. Avani Mainkar:** Scientific Committee Member Chief Scientific Officer, Keva Fragrances Ltd Dr. Avani Mainkar is a Technology Innovator with 25 years of experience in the FMCG field. She holds a Masters in Bioprocess Technology and a Ph.D in Pharmaceutical Technology. A large part of her career was with Marico Ltd, where she led the Advanced Technology &

Global Product Development groups and strengthened her domain expertise of technology led consumer innovations. Currently she is Chief Scientific Officer at Keva Fragrances & Flavours, where she leads a team of 100+ researchers spanning diverse areas like New molecule Discovery, Fragrance delivery technologies, Natural Actives & Cosmeceuticals. She is a passionate scientist with several patents and publications to her credit. She dabbles in several creative arts and lives her company philosophy of "where science blends with art."

**Prof. Anil Tripathi:** Scientific Committee Member, Professor, Institute of Science, Benares Hindu University,

Prof. He has served BHU as a Professor of Biotechnology for the last 20 years. He is the ex-Director of Institute of Science, BHU a post he held since February 2019. During 2014-2019, he served as Director of Central Institute of Medicinal and Aromatic Plants (CSIR-CIMAP), Lucknow. He lectured in Botany at Gorakhpur University (1985-1990) before joining BHU where he contributed over 30 years in teaching and research. He also served in various coordinator roles at BHU, including the School of Biotechnology, Centre for Bioinformatics, and the Interdisciplinary School of Life Sciences. Prof. Tripathi has led 18 research projects funded by national and international agencies, has given numerous talks in 25 countries, and led Indian and CSIR delegations to Oman and Vietnam, respectively. As Director of the Institute, he leads the Rs 125 crore SATHI project funded by DST and coordinates the BHU-BioNEST initiative, backed by DBT-BIRAC, fostering bio-entrepreneurship.

**Mr. Rashmikant B Mohile:** Scientific Committee Member Founder and CEO, C.L.A.I.M.S. Pvt Ltd. Session Chair Technical Session 4 – Evolving Safety and Regulatory Landscape Rashmikant B Mohile is the Founder & Managing Director of C.L.A.I.M.S. Pvt Ltd, India. Bringing over 35 years of extensive experience across the pharmaceutical, cosmetic, and food industries, he excels in R&D, technology management, strategic planning and clinical research management. He holds a double postgraduate degree in Pharmaceutical Sciences from Mumbai and Canada, and a Management qualification from the Jamnalal Bajaj Institute of Management, Mumbai. He is a former R&D and Technology Head for a leading FMCG company in India. He has been a speaker at numerous national and international conferences and has a robust portfolio of publications, showcasing his contributions to pharmaceutical sciences. He holds several patents and notably, has authored a chapter in "Topical Drug Bioavailability, Bioequivalence, and Penetration," published by Springer, USA. He is closely associated with ISCC, being the Founder Member and The Indian Pharmaceutical Association (IPA).

## INAUGURAL SESSION

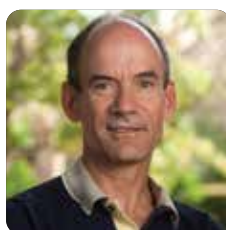

WELCOME

**Monisha Mullick:** President ISCC

OPENING REMARKS:

**Shunshuke Matsumoto**  
President, SCC Japan

OPENING REMARKS:

**Dr Reinhold Dauskard,**  
Stanford University and Stanford School of Medicine

Helping Hands To Your  
Ideas 

SINCE 15 YEARS

## OUR PRODUCT RANGE

### • Colour Cosmetics

- BB Cream
- Foundation
  - \* Serum Foundation
  - \* Lotion Foundation
  - \* Mouse Foundation
- Primer
  - \* Silicone Primer
  - \* Color Correcting Primer
  - \* Water Base Primer
  - \* Pearl Primer
- Lip & Cheek Tint
  - \* Water Base
  - \* Silicon Base
  - \* Mousse Base
  - \* Wax Base
- Highlighter
  - \* Face
  - \* Body
- Lip
  - \* Lipstick
  - \* Bullet Lipstick
  - \* Liquid Lipstick
  - \* Lip Gloss
- Eyes
  - \* Eye Liner
  - \* Mascara
  - \* Wax Base Eye Shadow

### • Facial Care

- Day Cream
- Night Cream
- Face Wash
- Sunscreen
- Moisture Cream
- Serum
- Scrub
- Under Eye Cream
- Toner
- Lip Balm
- Facial Mask
- Facial Kit

### • Hair Care

- Shampoo
- Scalp Scrub
- Conditioner
- Hair Spa
- Hair Serum
- Hair Oil
- Hair Tonic

### • Body Care

- Body Lotion
- Body Wash
- Foot Cream
- Body Scrub
- Manicure & Pedicure
- Hand Wash
- Hygiene Wash
- Breast Cream
- Yogurt
- Hand & Nail Cream
- Lube Gel

### • Perfume

- EDP
- EDT
- Mist
- Roll On

### • Baby Care

- Nappy Rash Cream
- Baby Lotion
- Baby Cream
- Baby Body Oil
- Head To Toe Wash
- Baby Shampoo
- Baby Hair Oil
- Baby Hand Wash
- Baby Sanitizer

### • Gifts Sets

- Perfume + Body Wash
- Perfume + Lotion

## TECHNICAL SESSION 1

**SESSION CHAIR: Prof Anil Tripathi**

**Dr Tomonobu Ezure:** Plenary Lecture  
Shiseido, Japan

Dr. Tomonobu Ezure, a top research scientist at Shiseido, is the first person to have been honored with the title of "Fellow" in Shiseido's 150-year history. His research, especially in the area of anti-aging, has contributed to the development of a broad range of skin care products. At the last congress of the

International Federation of Societies of Cosmetic Chemists (IFSCC), he was introduced as the most famous researcher in the cosmetic field, based on his monumental achievement of receiving four consecutive IFSCC awards.

**Sho Iguchi:** Speaker  
Life Science General Institute  
Technoble Company Ltd.

Sho Iguchi, born in Osaka, Japan. He is XXXXX Life Science General Institute, Technoble Co. Ltd. in Osaka, Japan. Sho has earned B.S. (Biology): Faculty of Science, Kobe University, Kobe, Japan and MSc (Biology): Graduate

School of Science, Kobe University, Kobe, Japan. His professional career spans from 2015 onwards and he has held positions of Assistant Technical Staff, Biosignal Research Center, Kobe University, Kobe, Japan; Technical Staff, Repertoire Genesis Inc., Osaka, Japan and Researcher, Life Science General Institute, Technoble Co. Ltd.

**Dr. Steve Thomas Pannakkal:** Speaker,  
L'Oreal

Steve Thomas Pannakkal is a passionate, highly motivated and skilled researcher with more than 19 years of experience in the field of pharmaceutical, medicinal and natural product discovery. In addition to his expertise in natural products, he has wide experience on de-replication platforms. It is noteworthy to mention

that one of his recent publications (2021) in Wiley sciences had been awarded as the top most downloaded research article in 2022.

He began working at L'Oréal R&I in 2011. Today, he is the global leader of ACNE platform for the development of the next generation of active ingredients that are disruptive in the cosmetic market. He also manages the global project at L'Oreal that is catered to the discovery of new skin tone actives for worldwide market.

**Kazal Boron Biswas:** Speaker  
Ichimaru Pharcos Co. Ltd.

Dr. Kazal Boron Biswas received his Ph.D. degree from Gifu University, Japan. He is now a Research Scientist at Ichimaru Pharcos Co. Ltd., Japan. He is also serving as a visiting researcher in the Department of Cosmetic Health Science of Gifu Pharmaceutical University, Japan. He has more than 20 publications in peer reviewed

journals. His research interest mainly focuses on the understanding of skin aging and pigmentation. He is a member of the Japanese Society for Investigative Dermatology.

## IFSCC ADDRESS AND FIRESIDE CHAT

**SESSION CHAIR:**

**Mr Sushobhan Dutta,**  
CEO - Vimal LifeSciences Pvt Ltd

**Dr Srin Kaveri:** Fire Side Chat  
Session Chair Director of Research, CNRS

Dr. Srin Kaveri, received his Veterinary Medicine degree in Bangalore India, and his Ph.D. at the Pasteur Institute, Paris. He joined the CNRS, France in 1990. His research is focused on immunology, immunopathology and immunotherapy. He studies autoimmune

dermatological conditions. He has been actively involved in Indo-French research activities. Dr. Kaveri is an Adjunct Professor at the Institute of Bioinformatics and Applied Biotechnology, Centre for Human Genetics at Bangalore, Amity University, Noida, Vellore Institute of Technology and Mysore University, Mysore. From February 2015, Dr. Kaveri represents CNRS, as the Director of New Delhi Bureau at the French Embassy.

**IFSCC Lecturer**

**Roger McMullen:**  
Principal Scientist - Ashland, LLC and Adjunct  
Professor, Biochemistry,  
Fairleigh Dickinson University, USA

## TECHNICAL SESSION 2

**SESSION CHAIR Dr Ajit Shasany:**  
Director CSIR- National Botanical Research  
Institute, India

Dr. Ajit Kumar Shasany is Director, CSIR- National Botanical Research Institute, Lucknow, India.

He is the ex-Director, ICAR-National Institute for Plant Biotechnology, New Delhi, and has been Chief Scientist, Biotechnology Division,

CSIR-Central Institute of Medicinal and Aromatic Plants. His scientific achievements include 148 Publications, 101 Patents in US and India. He has guided many students for Ph.D. And MSc. degrees. His research interests include plant diversity, metabolic engineering in Medicinal and Aromatic Plants and bioprospection for human health; Novel genes for phenylpropanoid, Terpenoid pathways for Aroma and Plant Immunity for crop production. Dr. Shasany is also engaged in dissemination of technology to farmers for income enhancement and livelihood upliftment and is Lead in the development of 39 clusters of Aromatic Plants in 22 districts of Odisha. Recipient of several awards and recognitions, he is also a member of leading research committees and missions.

# DELFIN TECHNOLOGIES

INNOVATIVE AND SCIENTIFICALLY VALIDATED PORTABLE SKIN RESEARCH INSTRUMENTS

## APPLICATIONS

- Skin research studies
- Claims validation and efficacy testing
- Cosmetics product and formulation R&D
- Evaluation of skin care and treatments
- In-vitro studies

## BENEFITS

- Innovative measurement principles
- Scientifically validated
- Extremely easy-to-use
- Understandable results
- Wireless and portable
- Software for data storage and collection

## DELFIN INSTRUMENTS

- VapoMeter (TEWL)
- MoistureMeterSC
- MoistureMeterEpiD
- SkinColorCatch
- ElastiMeter
- SebumScale
- SkinGlossMeter
- SkinPhotoTyper

WORLD LEADER IN PORTABLE SKIN RESEARCH INSTRUMENTS

Used in over 40 countries

EnvisBE Solutions Pvt. Ltd. is the official Distributor for Delfin Instruments in India

**Kaito Takashima:** Speaker  
Mandom Corporation

Kaito Takashima graduated from Graduate School of Kyushu University in March 2020. In April 2020, Kaito joined Mandom Corporation and engaged in product development of aerosol products (mainly hair styling products) and development of formulation technology. In Dec. 2022, Kaito did a presentation history at the 89th Japanese Society of Cosmetic Chemists (SCCJ) entitled "Development of a hair styling agent that creates a perm style without a perm".

**Aryasekhar Sanyal:** Speaker  
L'Oréal Research & Innovation

Aryasekhar SANYAL is a dynamic techno-commercial professional with 18+ years of rich experience in delivering end to end innovative solution, across categories and geographies. His research interest includes studying molecular interaction between complex physiological pathways such as barrier function, Inflammation, Nociception & Ageing, and identifying active ingredients that can modulate the form and function of skin. Aryasekhar started his career as the co-founder of DNA Research Centre (DNARC), Hyderabad, India. He later joined Unilever R&D, Bangalore, India. In 2013, Aryasekhar joined L'OREAL R&I, India, as a regional in-charge for biological actives, plant-based ingredient & claim Ingredients. Today, he is the cosmetic application referent for hydration and body platform, globally.

**Alok Sarkar:** Speaker  
Momentive Performance Materials (India) Pvt. Ltd.

Dr. Alok Sarkar has 20+ years of research experience with an established track record of developing innovative materials for personal care. He has received his Ph.D. in polymer chemistry from CUNY, USA in 2007. Shortly after completing his Ph.D., Dr. Sarkar joined Momentive as part of their technology team. He is currently holding a position of Expert Scientist in the same company. His primary research focuses on develop of high-performance sustainable materials for delivering differentiating benefits in personal care. Dr. Sarkar is an author on 20+ journal articles and an inventor on 15 granted and published patent applications.

## TECHNICAL SESSION 3 7 MARCH 2024

**SESSION CHAIR: Mr Kedar Vaze,**  
Managing Director & CEO, KEVA

A third-generation founder-family member, Kedar Vaze, has been associated with Keva since October 1996. Prior to taking on the role of Group Chief Executive Officer in October 2014, Kedar had worked within the group in the capacity of Chief Technology Officer (CTO) and Group Chief Operating Officer (COO). As COO he managed all the three businesses – Fragrance, Flavours & Aroma Ingredients. A proficient perfumer himself, Kedar has several Fragrance & Flavours patents to his name. Kedar holds a master's degree in Chemistry (M.Sc.), from IIT Bombay and has completed the Global Managers Program at Stanford University, USA.

Plenary Lecture,  
**Dr. Prabodh Trivedi**  
Director CSIR-Central Institute of Medicinal and Aromatic Plants, India

### Dr Avani Mainkar: Invited Lecture

**Dr. Vinita Gowda:** Invited Lecture,  
IISER, Bhopal, India  
Dr. Vinita Gowda is the Associate Professor, Dept. of Biological Sciences in Indian Institute of Science Education and Research (IISER) where she has been serving from 2013 till present.

**Dr. Pranjali Dhawal:** Speaker  
Fragrances and Flavours Association of India  
Dr. Pranjali Pradeep Dhawal, with a Ph.D. in Biotechnology, is the Facility-in-Charge, R&D Centre of the Fragrances and Flavours Association of India (FAFAI) since its inception in 2022. Pranjali was Head of Animal Biotechnology and Biochemistry at Kelkar

Education Trust's Scientific Research Centre. Simultaneously, she served as assistant professor Department of Biotechnology and Perfumery & Cosmetology at Vaze College for 3 years. Her expertise lies in advancing methodologies for safety and efficacy evaluations of synthetic and natural cosmetic, nanomaterial, pharmaceutical, and fragrance raw materials and finished products.

## TECHNICAL SESSION 4 7 MARCH 2024

### SESSION CHAIR: Rasmikant. B. Mohile

Plenary Lecture  
**Dr Viswajanani Sattigeri:** :  
Traditional Digital Knowledge Library (TKDL), India  
Dr Viswajanani Sattigeri is Scientist-H and Head, CSIR-Traditional Knowledge Digital Library Unit. The TKDL is a tool for defensive protection of Indian Traditional Knowledge, currently the

Indian systems of medicine. The TKDL currently contains information of about 4.6 lakh formulations and practices from Ayurveda, Siddha, Unani, Sowa Rigpa and Yoga. She has initiated steps for expanding the scope and user-base of the TKDL.

At CSIR, she had also handled matters pertaining to strategic planning, monitoring and decision and policy insights. Prior to CSIR, she was associated with the New Drug Discovery Research at Ranbaxy Research Laboratories Ltd. Dr. Sattigeri was also in world in Phase II clinical trials for Chronic Obstructive Pulmonary Disease (COPD) under the Glaxo SmithKline-Ranbaxy collaboration. Later at SmartAnalyst Pvt. Ltd, she provided for providing decision analytics support to big Pharma and Biotech companies in the US and Europe, etc.

**And Many More...**

**12:50 Dr. Ashwani Sharma: Speaker**  
**Moldoc Biotech Pvt Ltd**

Dr. Ashwani Sharma boasts an impressive career spanning over 18 years in Industrial Research and Development. Currently he serves as the Managing Director of Moldoc Biotech Private Limited in India. With a Ph.D. in Industrial Biology and Bioinformatics from IIT Bombay, he has dedicated his professional

journey to addressing complex challenges in the biotech industry, particularly in the realm of non-animal testing. Dr. Sharma's tenure includes fruitful collaborations with leading European firms, where he has leveraged molecular modeling and machine learning techniques to assess the safety of pharmaceutical and cosmetic products. He has served as a distinguished member of the Board and President of the scientific committee of French society "Group of Metabolism and Pharmacokinetics" GMP, France, and the European Society for Alternatives to Animal Testing (EUSAT).

**Akanksha Singh: Speaker**  
**L'Oreal Research and Innovation**

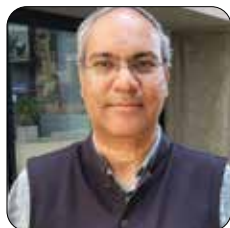

Akanksha Singh is a postgraduate from Indian Institute of Technology Bombay in Biomedical Engineering. During her post-graduation, she worked in the field of nanomedicine for targeted cancer drug delivery and patented the nanobubble drug delivery system created by her.

Akanksha joined Sciex as an Application Support Specialist, developing LCMS workflows for metabolomics, lipidomics and proteomics applications on the high resolution mass spectrometry system. After 5 years stint at Sciex, she joined L'Oreal in the Analytical Chemistry department, where she also leads globally the technical pathway on in-chemico assays for assessment of skin sensitization potential.

## TECHNICAL SESSION 5

### 7 MARCH 2024

**SESSION CHAIR: Dr Srinu Kaveri**

**Plenary Lecture**

**Dr R Venkataraghavan: Unilever**

Dr R Venkataraghavan is Platform Leader - Clean Future at Unilever. A physicist and materials scientist, he is passionate about purposeful innovations that positively impact people and the planet. a PhD from the Indian Institute of Science, Bangalore he has over

25 years of research and work experience across Korea, Japan, USA and India, with premier institutions viz., LG, TIFR, Riken and Unilever. One of his current research objectives is to find solutions to reduce the environmental impact of materials through materials and process driven solutions, while maintaining superior functionality. He was awarded the Unilever 'Platinum Award' for his patent filings in 2017 and a Young Scientist Awardee at the Indian Science Congress in 2000. He is also a Science Technology Agency Fellow, awarded by Japan (JISTEC) in 2000. Venkat has over 50 publications/ invited presentations across journals, conference proceedings and popular articles and has filed

over 45 patents and design applications with inventions. Some of the technologies he developed also manifest in commercially successful products.

**Kristin Neumann**

**Co-founder at MyMicrobiome AG**  
**neumann@microbiome-friendly.com**

Kristin Neumann is the founder of the information platform MyMicrobiome and a passionate scientist, with a PhD in Microbiology. Her professional career, via molecular biology and research on an antibiotic alternative, lead her to form MyMicrobiome. Dr. Neumann's

realization of how important an intact microbiome is for the individual's wellness factored into her decision to summarize the science around the microbiome. She developed a free information platform and has made it available to her fellow human beings.

**HyungJin Bae: Speaker**

**Teamleader,**  
**Kolmar Korea**

## VALEDICTORY FUNCTION

### 8 MARCH 2024

**SESSION CHAIR**

**Monisha Mullick: President ISCC**

**Dr Deepak Bagla: Valedictory Address**  
**Former M.D & CEO, InvestIndia**

Deepak Bagla has a professional career of over three decades, with the World Bank, Citibank, and Private Equity having responsibilities across Europe, Africa, and Asia. He is the former Managing Director and CEO of Invest India, the National Investment Promotion and Facilitation Agency promoted

by the Government of India. Invest India is also the execution agency for Startup India and the Prime Minister's Science and Technology initiative. He was also the President of the Geneva-based World Association of Investment Promotion Agencies, with membership of 100+ countries. Mr. Bagla has been conferred "Grande Ufficiale dell'Ordine della Stella d'Italia" by the President of the Republic of Italy.
